BEVERAGE INNOVATIONS

PARTY STAR DELUXE INSTRUCTION INSERT

GETTING STARTED

1. 

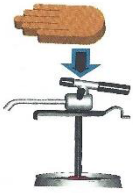

Remove the plastic cap from the keg seal

2. 

Ensure that you **pull** the cap out of the keg and **do not twist** the cap

3. 

Moisten the tap rod with water and insert it vertically into the keg seal.

4. 

Lightly strike the beer tap from above using the palm of your hand. Insert the tap rod and fasten the tap valve on the keg using the clamp/

INSERTING THE CO_2 CARTRIDGES

Only insert the CO_2 cartridge if the keg's natural pressure is depleted and beer no longer flows. Unscrew the tap valve and place a new CO_2 cartridge as illustrated by the image.

Ensure that you only unscrew the cartridge holder after the CO_2 cartridge gas been emptied to prevent the possibility of bursting.

CLEANING AND CARE

Clean your tap after every emptied keg to ensure proper tap valve function:

1. Run the tap valve under running water with the outlet pipe/ piercing rod facing upwards and rinse thoroughly.
2. At the same time, press the tap lever so that the valve is fully opened and does not become gummed up from dried beer.

T& Cs Apply : Starting from date of purchase, this equipment has a 24-month warranty. A proof of payment shall be the basis of all warranties. No guarantee can be provided for repairs performed by a third party. A warranty claim shall not extend the warranty period. No additional liability – for whatever legal reason – shall be assumed.
